The place

Thessaloniki, the capital of Macedonia Prefecture is the second largest city of Greece (after Athens). In fact, the city is honorarily called co-capital for its historical and administrative importance.

Thessaloniki is a modern city that restored most of its wounds and receives millions of visitors every year. With the population of about 800.000 people, Thessaloniki is famous for its ancient monuments and vivid nightlife. The trademark of Thessaloniki is the White Tower, right in the waterfront. It was built in the 16th century by the Ottomans and along its history it was used as a fort, a prison, a meteorology laboratory and today it houses the Byzantine Museum of the town.

Two big Universities are located in the city "Aristoteles University" and "University of Macedonia" and one big "Technological Institution". That's why Thessaloniki is a very lively city, full of young people.

The hosting organisation

The Association of Friends of the Disabled “Movement for Change” (SFA) is a Non-Profit Association founded in 2010. Our aim is to propose and create something different, something equal in the field of caring for disabled persons. At the center of our multifaceted action is the Creative Activity Center for Disabled Persons, which provides its services to 35 service users on a daily basis. At the same time we organize entertainment, awareness and information events on a local and wider level in close cooperation with universities and other organizations.

Our Association is carefully structured, comprised of a multidisciplinary team, around 100 volunteers and trainees per year as well as parents and friends of people with disabilities. We want to live in a society that embraces all of its members and gives top priority to human rights, with no exceptions. We believe in equal opportunities and basic rights for all, regardless of who they are.
